To Whom It May Concern,

Miss Yingge (Linda) Liu is a 3rd-year undergraduate student in the BEng. in Energy Science and Engineering Programme at the City University of Hong Kong. It is my greatest pleasure to recommend Linda for the internship at your company.

As the Associate Dean at the School of Energy and Environment, I have had the privilege of overseeing the education of undergraduate students, including Linda. Additionally, I was Linda's professor for a core course on thermofluids. She has been doing very well academically, maintaining an impressive CGPA of 3.31. Linda not only possesses strong academic abilities but also demonstrates confidence and a remarkable sense of responsibility. Furthermore, her excellent communication and interpersonal skills contribute significantly to her overall excellence.

In addition to her academic accomplishments, Linda actively participated in various co-curricular activities, enriching her educational experience. Notably, she led a team in the CityUHK Tech 300 training camp. This camp enabled her to acquire valuable skills ranging from designing business solutions and conducting market research to delivering investor pitches. She also served as the External President of the SEE's Student Chapters, organizing different activities for our school and fellow students. Furthermore, she recently took part in the Youth Climate Summit 2024, an international event that brought together students and young professionals to engage in a series of seminars, workshops, and projects aimed at addressing pressing climate issues. This experience has deepened and broadened her perspective on such matters, which will greatly benefit her as she pursues a career in this field.

Given Linda's academic background, experience and proactive characters, I have full confidence that she will excel and gain the most out of the internship experience. Should you have any further questions or require additional information, please do not hesitate to contact me.

Sincerely yours,

A handwritten signature in black ink, reading "Patrick Sit". The script is fluid and cursive, with the first name "Patrick" and the last name "Sit" written in a single continuous stroke.
