(852) 5349-8331 | yingge1204@outlook.com | [LinkedIn](#)

EDUCATION

City University of Hong Kong-Hong Kong Sep 2023 – Jun 2027 (Anticipated)

- BEng in Energy Science and Engineering- cGPA: 3.37 / 4.30
- Relevant coursework: Climate Change & Adaptation Strategies (A+), Project Management (A+), Sustainable & Renewable Energy (A), Engineering Communication (A-),

WORK EXPERIENCE

CLP Power Limited: Sandwich Intern- Project Assistant-Hong Kong Jun 2025 – May 2026

- Built BIM-linked Power BI dashboards to centralise Cat 1a project KPIs across PMGS phases and deliver the execution team's first Copilot Studio RAG agent to improve support of the project life cycle and reduce manual processing by ~30%.
- Created a project assurance hub with Power App that incorporated PESTLE/risk matrix registers, clause tracking, site logs, QA/QC and PMGS FID stage-gate reviews for FEED and NEC4 documentation, replacing manual records.
- Deployed an Asset Information Management (AIM) system with interactive 3D CPPS visualisation on Power BI by collaborating with multi-disciplinary internal teams and external consultants; acquired hands-on asset knowledge of LNG, CCGT, BESS and smart grids via site visits and supported BESS
- Drafted a hydrogen economy strategy and business case for corporate decarbonisation planning, scoping hydrogen blending, CCUS routes and e-methanol marine fuel roadmaps aligned with Hong Kong's 2050 net-zero goal, and presented findings to senior leadership.

Prozparity: Sales Assistant (Hybrid)-Hong Kong May 2024 – Aug 2024

- Designed crowdfunding and product sales webpages for lead generation; built reusable webpage templates for ongoing team marketing, grew social media followers by 200+, and increased conversion-ready inbound traffic by 20%.

Beijing Circular Economy Association: Summer Intern-Beijing May 2024 – Jul 2024

- Modelled a BIPV solar-greenhouse prototype using CAD/CAM tools and CFD simulation, developed technical content for policy briefing notes for NPC deputies, and translated complex engineering concepts into accessible, actionable knowledge, earning positive stakeholder feedback.
- Organised signature workshops and events attracting 60+ attendees from government, academic and industry; coordinated 5+ cross-organisation working meetings and prepared bilingual agendas and briefing documents.

RESEARCH EXPERIENCE

Westlake University: Summer Research Intern-Hang Zhou Jul 2026 – Aug 2026

- Developed a cross-scale ecological carbon-flux modelling framework under the supervision of Prof. Weicheng Cui, utilising Python for multi-source data processing and statistical trend analysis.
- First author of the working paper posted on SSRN (2026); code released publicly "Integrating Carbon Fluxes Across Ecological Scales: A Conservation-Constrained UCST Modelling Framework". (<https://doi.org/10.2139/ssrn.7417192>)

City University of Hong Kong: Research Assistant-Hong Kong Apr 2024 – May 2025

- Conducted laboratory experiments on catalyst-modified anti-corrosion coatings under Prof. Michael K.H. Leung, producing evidence-based reports on technical viability and environmental trade-offs.
- Exploring robotics and deep learning-driven virtual grid concepts and authoring technical and public-facing articles to translate complex decarbonisation research for diverse audiences.

LEADERSHIP EXPERIENCE/ OTHER ACHIEVEMENTS

HK Tech 300 Start-up Team Leader (Jan 2025 – Present): Led a 4-person cross-disciplinary team developing three carbon-negative concepts — SolarGrow (BIPV agriculture), HydroFarm (circular aquaponics), Carbon Falcon (nature-based carbon removal); ran market sizing, competitor benchmarking and policy mapping, built investor-ready models and pitch decks, advancing to semi-finals. Applied NGFS/IEA scenario analysis and outlined digital-twin decision-support workflows.

NUS Youth Fellowship Programme (Jun 2026 – Jul 2026): Completed an accredited AI training covering machine learning, deep learning and generative AI; applied Midjourney, ChatGPT and Stable Diffusion to eco-product visualisation, content ideation and sustainability education materials.

Chairperson, CityUHK Sustainability Student Club (2025 – Present): Grew a 300+ member community and 1,000+ Instagram followers via targeted content and event branding; orchestrated 10+ SDG-aligned events with industry partners and NGOs, managing end-to-end delivery and inclusive engagement.

ADDITIONAL INFORMATION

Languages: Native Mandarin; Proficient English (IELTS 7.0); Fluent Cantonese; Basic Thai & Basic French

Award/Qualifications: Mental Health First Aid (MHFA) Certification(2026); Construction Industry Safety Training Certificate(2025); Microsoft Career Essentials in Data Analysis(2025); Recipient of the Hong Kong SAR Talent Development Scholarship (Jul 2025); GenAI Hackathon for SDGs (HKU 2025)-Top 10 Team (AI-driven sustainable solution); Pechoin AIGC Creative Design Competition (2025)-Top 10 Excellence Award; WGO Social Innovation Interior Design (2024/25)-Top 10 Merit Award

Skills: Physical & transitional climate risk analysis; TCFD, ISSB, GRI, CDP reporting; NGFS/IEA scenario analysis; LCA, carbon footprint accounting, GHG Protocol; ISO 9001, ISO 14064, ISO 50001; CMIP6 datasets; LNG, CCGT, hydrogen pathways, CCUS, BESS, smart grids; COMSOL, Aspen Plus; Revit, Navisworks, AutoCAD, Civil 3D, Fusion 360; AIM asset-information management; Microsoft Copilot Studio, Power Apps, Power Automate, Dataverse; prompt engineering, introductory RAG; Power BI, Advanced Excel (VBA, Power Query); Python, introductory SQL; MS Project, WBS, risk register maintenance; PESTLE analysis; PMGS project assurance; NEC4 contracts, FEED review; Adobe Creative Suite (PS/AI/ID/Premiere Pro); technical writing, climate policy research, public speaking; circular economy innovation, upcycled eco-product design

Interests: Climate risk modelling; CCUS; clean energy transition; circular economy; creative writing; public speaking; distance running
